**Elect**

# Jennifer Fielder

**WE HAVE TO GET IT RIGHT!**

**Montana State Senate (R) District 7**

*Serving Sanders, Mineral, & western Missoula Counties*

## Restore the Blessings of Freedom, Security, & Prosperity in Montana

*I want to work WITH citizens to restore the honor, liberty, family values, & economic prosperity that once made America great.*

**Private Sector Experience.** My opponents are long term public employees. But I understand a vibrant economy hinges on private sector prosperity. Government must operate efficiently and foster a strong business sector or we won't have the jobs or the tax base to support the needed public services or ANYONE'S retirements. There are some very good people who work in government, but often their hands are tied by the complexity of bureaucratic red tape. To allow all Montanans' to prosper, our State has to balance the budget, stay out of debt, promote good ideas, and eliminate any unnecessary or unconstitutional taxes and regulations.

**We need good jobs!** Access to public lands and responsible management of our natural resources is absolutely essential. We can't let the federal agencies just shut us out of the equation. Many of us rely on the forest & grasslands for our livelihood, and we know scientifically managed harvest can be very beneficial to forest health, wildlife habitat, fire prevention, watershed quality, and economic vitality. In addition to traditional jobs, we need to foster new economic opportunities too. Creative solutions, business skills, integrity, and bold leadership come naturally for me, and that's exactly what we need in government today.

**It's time we choose** hard working representatives who will make wise decisions in favor of the people through local government - not bigger bureaucracy. We need leaders of moral character who will work well with others and put the interests of the PEOPLE they serve ahead of their own. It's not about party politics or personal agendas for me. It's about doing the right thing to protect all of Montana's interests now and for future generations.

**I will listen to you.** Government should be open and transparent. Individuals have the right to privacy. Not the other way around! I strongly believe in America's founding principles of limited government & individual freedom. Protecting your GOD GIVEN & CONSTITUTIONAL RIGHTS will be my number one job. My education and experience have equipped me for this incredible commitment. I'm ready and willing. It's now up to you...

**Please VOTE wisely on June 5<sup>th</sup> -- If Good people don't lead, others will.**
