RE: initiating a working group

How would Friday afternoon (2/15) work? Sorry for the delay in getting this nailed down, calving season is upon us and folks are tough to catch up with...

Karen

Next week is not good for me. The week of Feb. 11 is OK other than Tuesday the 12th. Would it be possible to meet after the Feb. 14 Commission meeting? Should have more solid direction then.

Thanks,

Howard Burt

Would like to check on both of your availability over the next couple of weeks to attend an initial meeting of a Mill Creek elk brucellosis working group. This would likely be 5 or so ranchers and I'm thinking 2 sportsmen. I would like to start making calls to get something set up, some ideas of options for scheduling would be great.  
Thanks –
